

Long Life Washroom Systems

Washroom Systems

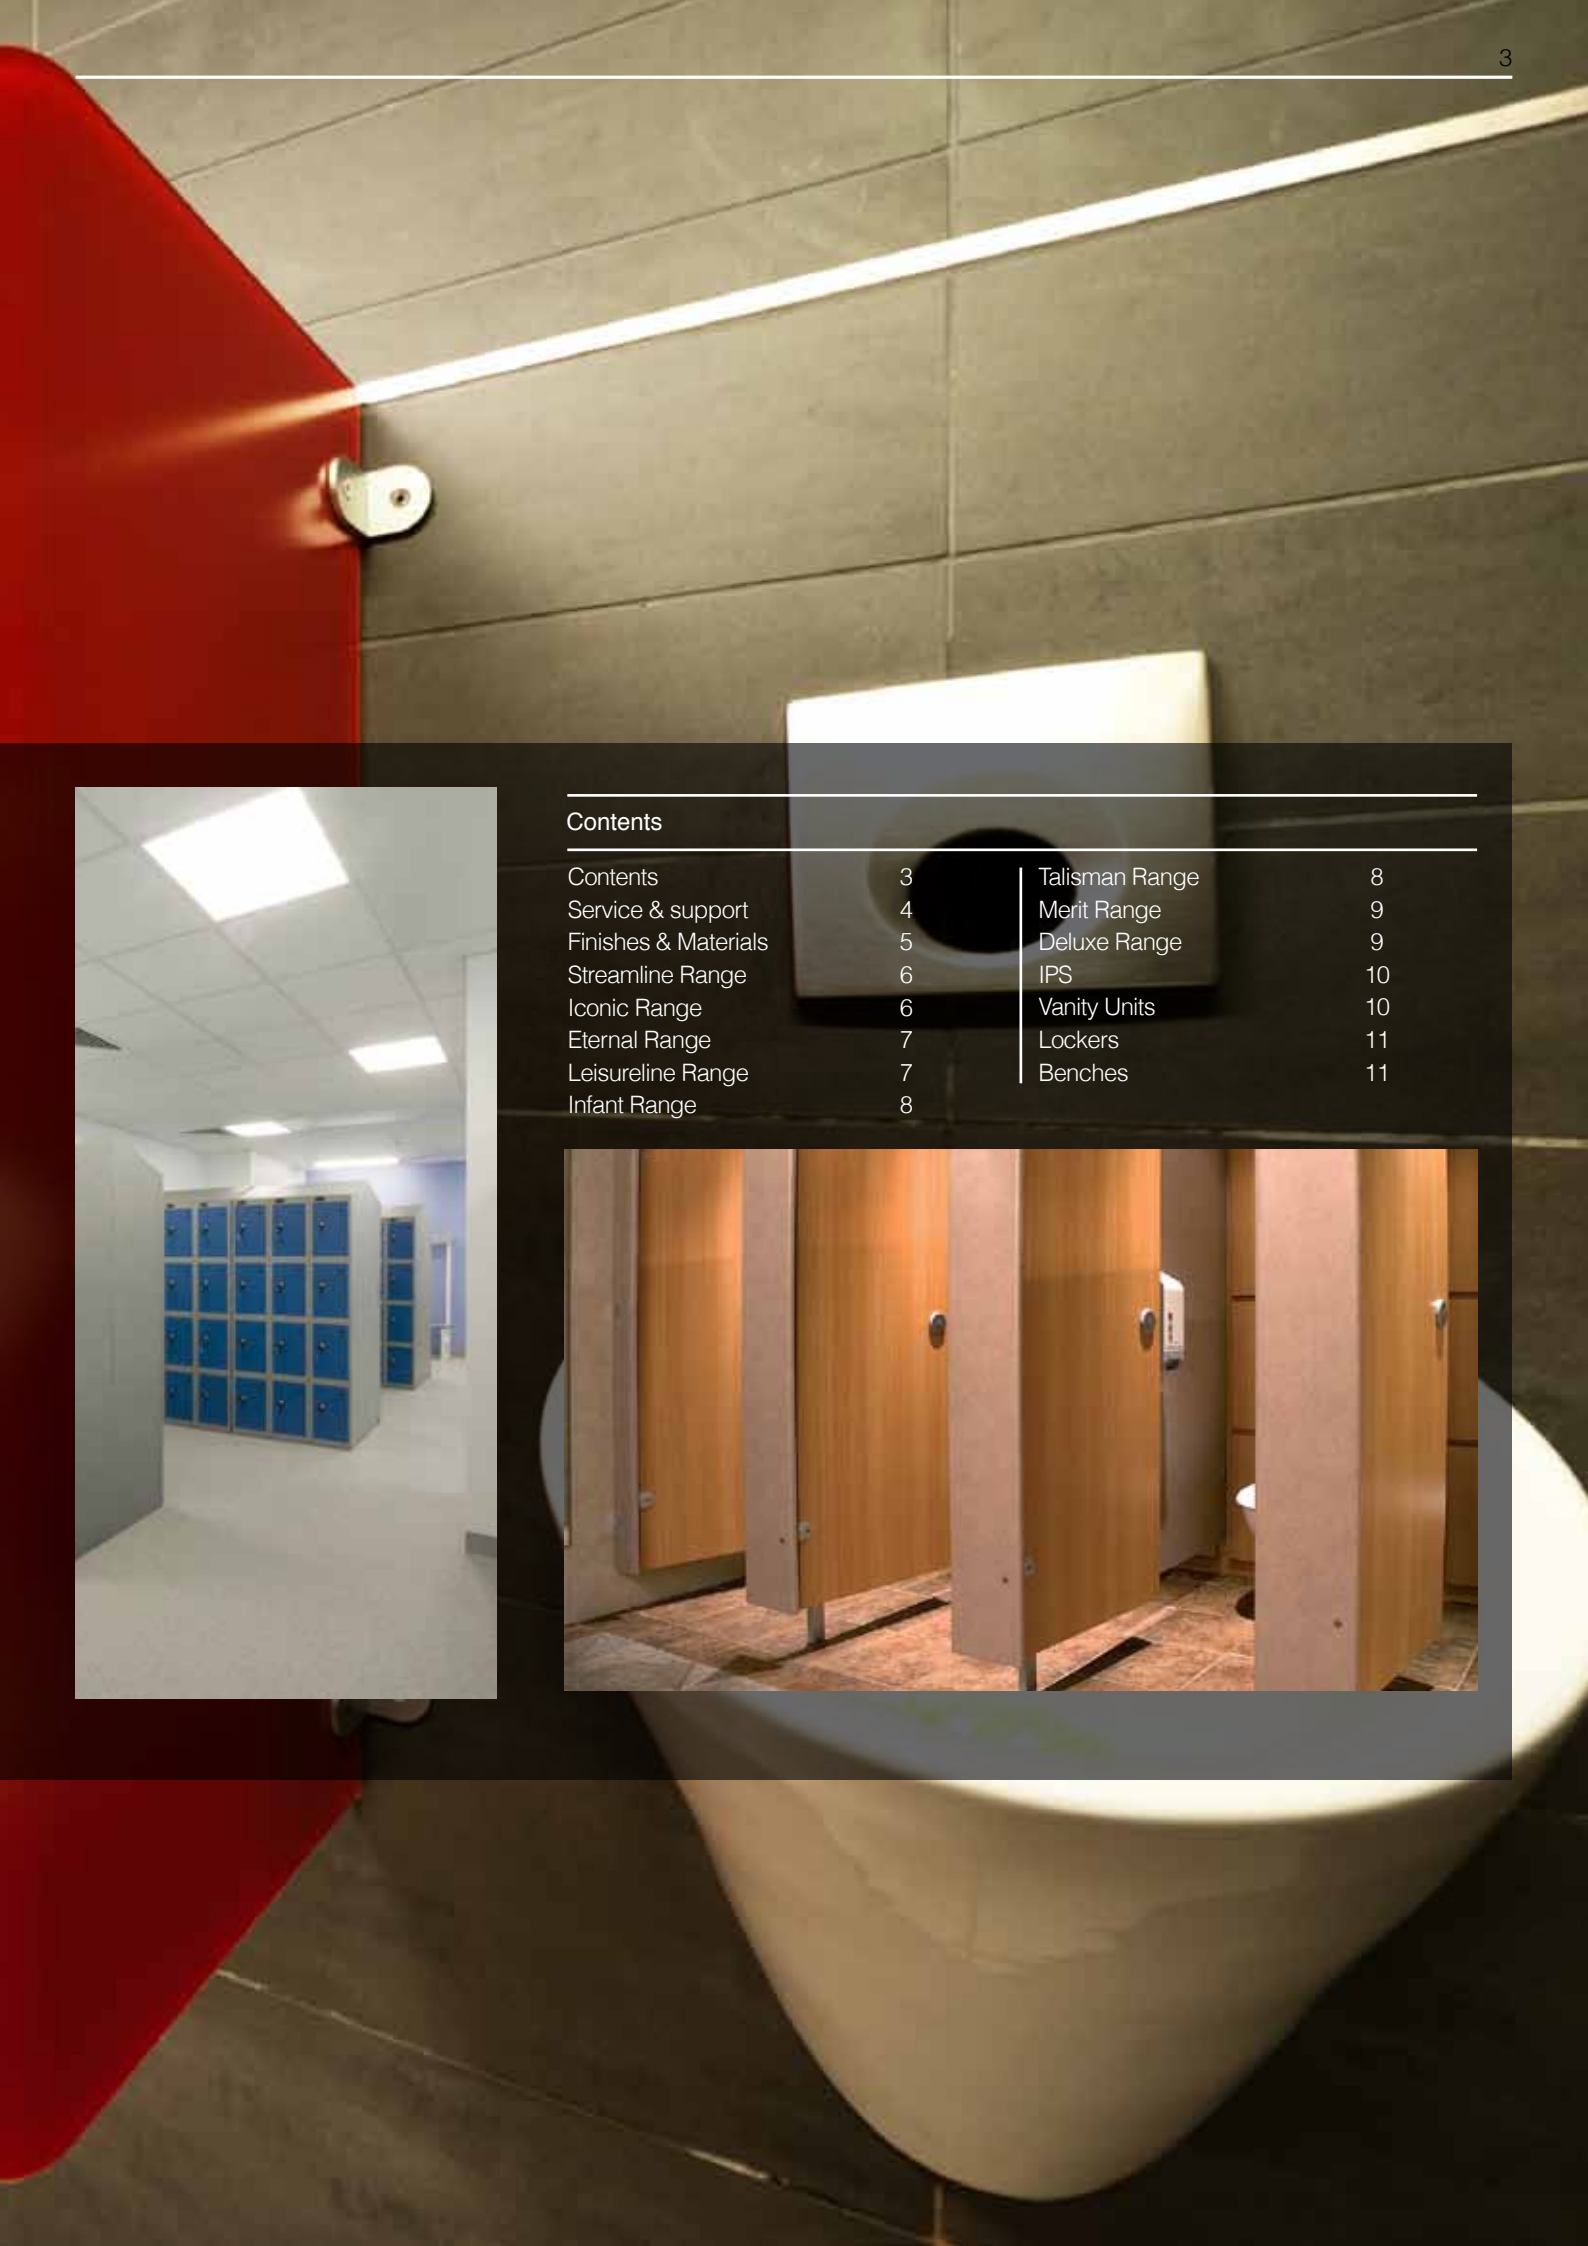

JP Corry has supplied materials to the construction industry since 1814. Our experienced staff will guide you from the initial concept through to the final installation, offering expert advice on a design to suit your needs and budget. To make your decision easier, we can also provide samples of the many different materials and finishes available from leading manufacturers Abet, Formica, Polyrey and Wilsonart.

We offer bespoke, durable washroom solutions for all sectors including:

- Schools
- Leisure Centres
- Hospitals
- Hotels
- Restaurants
- Sports Complexes
- Healthcare
- Shopping Centres
- Night Clubs

Service & Support

Our experienced team will assist you through each step of the process, from the initial planning to the finished system.

Step 1 Contact

Call 028 9024 3661 or email washroomsolutions@jpcorrry.com to let us know your requirements. We will quickly deal with your enquiry and may arrange a site visit so that we can recommend the most suitable system for your project.

Step 2 Measuring Up

Our Technical Sales Representatives will meet you on-site to measure for the project, whether you are installing cubicles and vanity units for a small project or large multi-unit solution.

Step 3 Manufacturing

Your bespoke washroom system is then manufactured at our own facility in Belfast. This ensures we can provide a flexible turnaround, quality control and can guarantee an experienced workforce.

Step 4 Fitting Service

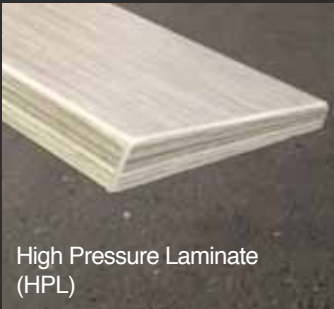

Once your system has been manufactured it will be assembled on-site by our team of experienced fitters. A Technical Sales Representative will also be present to ensure everything is completed to the agreed specification.

Step 5 Finishing Touches

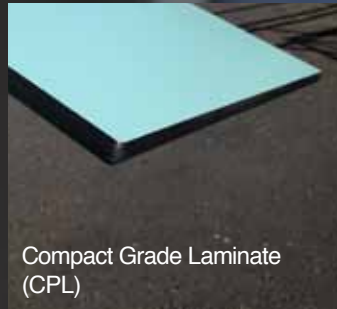

Accessories are added and the project is signed off by the client – customer satisfaction guaranteed!

Materials & Finishes

High Pressure Laminate (HPL)

Compact Grade Laminate (CPL)

Melamine Faced Chipboard (Panoprey)

Colour Options

Contact the JP Corry washrooms department for details on our extensive range of colour options.

High Pressure Laminate (HPL)

HPL is exceptionally versatile, offering outstanding durability with superior resistance against impact, abrasion and general surface wear. Its surface is moisture resistant and maintains its integrity even in the most heavy duty applications.

HPL is readily available in larger sheet sizes specifically tailored to offer the best optimisation and most cost-effective solution for washroom and related applications.

Compact Grade Laminate (CGL)

Compact Solid Grade laminate is a self-supporting decorative panel with a black core offering the same surface advantages as those of HPL. This product is particularly suited for high humidity environments due to its inherent water resistance.

Some Compact can be Sanitized® as standard at no additional cost. Perfect for sensitive (humidity, heat) and high traffic environments (Schools, hospitals,...), the Sanitized® additive ensures continuous protection against the development and proliferation of bacteria.

Melamine Faced Chipboard (Panoprey)

Melamine Faced Chipboard is a self-supporting, moisture resistant board with two decorative faces offering the most cost-effective solution for non-wet area applications. The most popular decors have been made available in Panoprey to complement HPL and CGL availability to further maximise the flexibility in your choice of product.

Applications

Commercial

Skainos Project, Belfast: JP Corry fitted the Eternal range of cubicles and 20mm IPS panels with postformed vertical edges.

Education

St Malachys Primary School, Belfast: JP Corry installed the Deluxe range of cubicles and vanity units incorporating our infant range with bright primary colours.

Health

St James Hospital, Dublin: JP Corry installed full height postformed IPS panel systems for clinical wash hand basins.

Leisure

The Arena, University Of Limerick: JP Corry fitted the Leisureline village changing cubicles with bench seating for use at the Special Olympics.

Retail

Leading supermarket chain, Ireland: JP Corry installed the Eternal range of cubicles with 12mm compact grade IPS Panel system to conceal services and vanity units with a polished solid surface top and integrated wash hand basins.

Washroom Systems

Streamline Range

This premium range offers customers a bespoke flush fronted floor to ceiling option with inline fittings. It can be designed using all cores including chipboard, MDF, plywood and compact. The durable Streamline cubicles are available in a full range of colours and finishes.

Specification

- Available in 4 core options
- Stainless steel fittings including adjustable pedestal and spring loaded flush door hinges
- Available in a full range of colours
- Flush fronts offering sleek modern look

Iconic Range

This stylish system is suitable for use in high specification medium duty areas such as public houses, hotels, offices, shopping centres, restaurants and private sports clubs.

Specification

- 18mm V313 chipboard core bonded both faces with high pressure laminate
- Available in a full range of colours
- Doors edged with 1mm PVC in a contrasting colour
- High polished aluminium fascias and fittings including headrail, hinges, wall brackets, pedestal, hat & coat hook and emergency release indicator bolt

Eternal Range

Leisureline Range

This is a robust semi framed system suitable for use in heavy duty areas such as schools, hospitals, leisure centres, fitness suites, night clubs and other public areas. It is ideally suited to areas where humidity and water is present, and where strength and durability is required.

Specification

- Semi framed system
- 12mm solid compact laminate with decorative finish to both faces
- Available in a full range of colours
- Edges black and bull-nosed for safety
- Satin anodised cubicle fittings including hinges, wall brackets, pedestal, hat & coat hook and emergency release indicator bolt
- Cubicle fittings also available in a power coated finish
- Suitable for high moisture areas

This is a robust fully framed system suitable for use in heavy duty areas such as schools, hospitals, leisure centres, fitness suites, night clubs and other public areas. It is ideally suited to areas where humidity and water is present, and where strength and durability is required.

Specification

- Fully framed system
- 12mm solid compact laminate with decorative finish to both faces
- Available in a full range of colours
- Edges black and bull-nosed for safety
- Fully framed aluminium cubicle fittings including headrail, clashing post, full length single hinge, hat & coat hook and emergency release indicator bolt
- Cubicle fittings also available in a power coated finish
- Suitable for high moisture areas

Washroom Systems

Infant Range

With its curved division panels and door the infant range is suitable for use in nursery and junior school.

Specification

- 18mm WBP plywood core bonded both faces with high pressure laminate
- Available in full range of colours
- Pilasters postformed two long edges with wavy laminated headrail
- Powder coated finish aluminium cubicle fittings including hinges, wall brackets, pedestal, hat & coat hook and emergency indicator bolt

Talisman Range

This range is perfect for areas of high volume usage such as schools, leisure centres and arenas. Its robust build quality is proven to meet every day demands.

Specification

- 12mm solid compact laminate with decorative finish to both faces
- Available in a full range of colours
- Edges black and bull-nosed for safety
- Frame work available in satin anodised and powder
- Coated finishes as standard incorporating an Emergency coin release system and anti-finger trap
- Bespoke colours and finishes are available on request
- Full height cubicles can be constructed up to 3.5m with the facility to fix an overhead Anti-peep screen into the headrail

Merit Range

This affordable range is suitable for use in light duty areas such as retail outlets, offices, health centres, hospitals and church halls.

Specification

- 18mm V313 chipboard core bonded both faces with high pressure laminate
- Available in a full range of colours
- Doors edged with 1mm PVC edging in a contrasting colour
- Pilasters postformed two long edges with laminated headrail
- Satin anodised cubicle fittings including hinges, wall brackets, pedestal, hat & coat hook and emergency release indicator bolt
- Cubicle fittings also available in a powder coated finish

Deluxe Range

This range is suitable for use in medium duty areas such as schools, public houses, hotels, restaurants, offices, shopping centres, leisure centres and hospitals.

Specification

- 18mm WBP plywood core bonded both faces with high pressure laminate
- Available in a full range of colours
- Doors edged with 1mm PVC edging in a contrasting colour
- Pilasters postformed two long edges with laminated headrail
- Satin anodised cubicle fittings including hinges, wall brackets, pedestal, hat & coat hook and emergency release indicator bolt
- Cubicle fittings also available in a powder coated finish

IPS & Vanity Units

IPS

JP Corry offers a bespoke panelling service ideal for walls, column casings and concealing cisterns and pipework. These panels are secret fixed and come complete with laminated sub frames and / or softwood framework.

Specification

- 18mm with postformed WBP plywood core faced high pressure laminate
- Available in full range of colours
- PVC edging
- Balancing veneer on reverse
- Access panels secret fixed to softwood framework

Vanity Units

Vanity units are extremely versatile and come in an array of design options to achieve functionality whilst maintaining aesthetic appeal. JP Corry can design and manufacture units to complement any washroom.

Specification

- 18mm plywood, 28mm chipboard or solid surfacing material
- Available in a full range of colours
- 200mm postformed drop front
- 100mm postformed upstand
- 18mm plywood access panels secret fixed to softwood framework

Lockers

JP Corry offers lockers in a wide range of sizes and layouts to suit any application. Whether the lockers need to be water resistant for leisure centres, strong for schools, steel for higher security, low access to meet disability needs or hygienic for hospitals. JP Corry can offer a bespoke solution tailored to your requirements.

Specification

- Every locker has a full height strengthener welded inside each door to increase strength and security
- Lockers have a welded plinth making each compartment totally separate and increasing structural rigidity
- Versatile range of locks available ensuring a locker that is suited to your environment
- ACTIVE COAT anti-bacterial technology - the hard wearing anti-bacterial powder coating for an active environment as standard
- Lockers comply to BS 4680

Benches

JP Corry manufactures and installs quality bench seating suitable for high use environments such as schools, leisure centres and other public changing areas. These made to measure benches are manufactured from solid hardwood or compact grade laths and are available in a range of styles and colours.

Specification

- 38mm mild steel box section brackets predominantly welded to aid speed of assembly
- All brackets are fitted with adjustable feet and floor fixing brackets to accommodate uneven floors
- Both adult and junior arrangements available
- A full colour coordinated finish can be achieved by combining polyester powder coating to the frame work with an array of coloured compact grade laths
- For a more traditional look the system enables wooden laths to be fitted as an alternative
